WORKSHOP-Social and work integration of people with disabilities

Date: 29.03.2021

Procedures: online

Target group: disabled people aged 14-25

Purpose: preparation for integration into the labor market

Objectives:

1. How to find you a job;
2. How to prepare for an interview
3. How to make a CV;
4. How to behave when giving an interview.

Duration: 3 hours.

Description of the activity

The workshop took place online, with the participants logging in on the ZOOM platform at 8 a.m. In the opening, each participant described their passions, interests related to the field in which they would like to work after finishing school. Following this heuristic conversation, it was concluded that in order to have a career, students must first obtain employment, this fact being possible only after thorough training. One of the most important aspects of a job is the CV.

The teachers presented the creation of a CV step by step, answering all the doubts that the students had.

Another point of the workshop was the job interview, the students receiving advice related to behavior and non-verbal language during the interview, also elucidating the students' concerns.

The last point of the meeting was aimed at informing the students about how to look for a job, reviewing both websites with job offers and local newspapers with announcements, the bulletin board from the County Employment Agency.

Also, the students received useful materials: a model CV, completed, an empty CV, list of websites and newspapers that contain job offers.
