Pe 6 mai 2022, Organizația Integrare Europeană, împreună cu partenerul local CCDR, a susținut activitatea "Second training seminars organized for participants who do not have the basic notions in the field of technology and informatics".

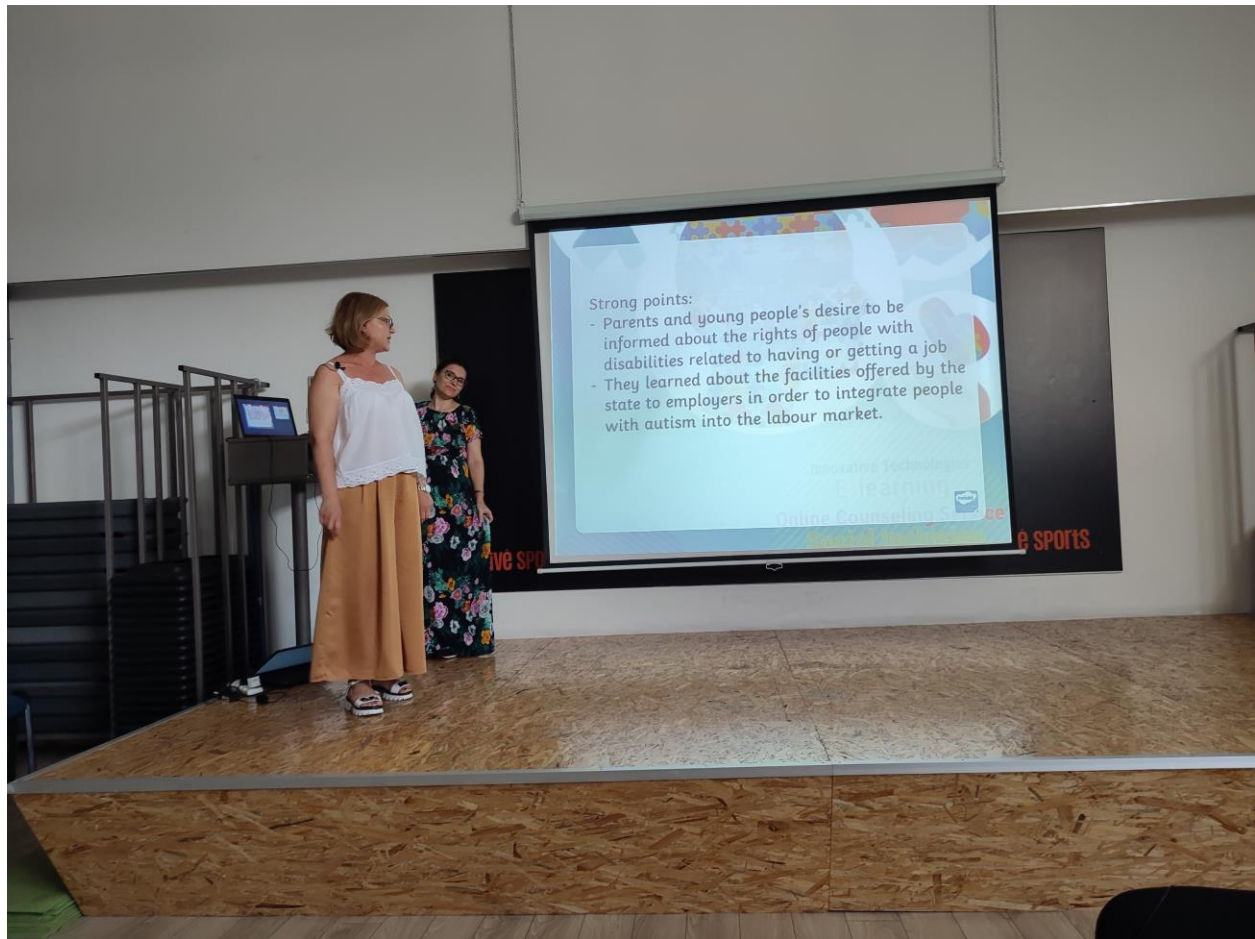

Seminarul s-a desfășurat online, cu participarea a 62 de specialiști, prof. învățământ special, profesori învățământ de masă, formatori educația adulților.

Seminarul a avut două secțiuni:

Prezentarea de software care pot fi utilizate în educația persoanelor mai puțin familiarizate cu tehnica modernă, prezentare de bune practici în domeniul realizării de materiale de învățare și formare de competențe cu ajutorul software, prezentarea celor mai bune și actuale platforme și software utilizate în educația persoanelor cu dizabilități și nu numai.

On May 6, 2022, the Integrare Europeană Organization, together with the local partner CCDR, held the activity "Second training seminars organized for participants who do not have the basic notions in the field of technology and informatics". The seminar took place online, with the participation of 62 specialists, special education teachers, mass education teachers, adult education trainers. The seminar had two sections: Presentation of software that can be used in the education of people less familiar with modern technology, presentation of good practices in the field of making learning materials and skills training, using software, presentation of the best and current platforms and software used in the education of people with disabilities and more.

Strong points:

- Parents and young people's desire to be informed about the rights of people with disabilities related to having or getting a job
- They learned about the facilities offered by the state to employers in order to integrate people with autism into the labour market.
