ERASMUS+

Project Name: New horizons for the
BLUE world

Project No: 2020-1-FR01-KA204-079996

Partners:

CERCLE AUGUSTIN D'HIPPONE (France)-coordinator of project

STANDO LTD (Cyprus)

INTERNATIONAL INSTITUTE OF APPLIED PSYCHOLOGY AND HUMAN SCIENCES
ASSOCIAZIONE CULTURALE (Italy)

SC PSIHOFORWORLD (Romania)

INTEGRARE EUROPEANA IN DOMENIUL TINERETULUI, SPORTULUI,
VOLUNTARIATULUI SI CETATENIEI ACTIVE EUROPENE (Romania)

NAMOI (Russian Federation)

The main objective of the project is to develop a training program with the help of new technologies adapted for adults with autism, which respects their space learning and highlights their skills, in order to promote their social and professional integration. It takes the form of an innovation project led by a consortium of six European partners.

The outputs of the project are:

E-learning platform-"I have autism -
I can integrate"

Virtual Assistant

Employer's guide

ACTIVITY OF THE PROJECT

Training seminars organized for participants who do not have the basic notions in the field of technology and informatics

The activity was divided into two parts:

Part one: ONLINE SEMINAR

Pe 6 mai 2022, Organizatia Integrare Europeana, impreuna cu partenerul local CC DR a sustint activitatea “Second training seminars organized for participants who do not have the basic notions in the field of technology and informatics “.

Seminarul s-a desfasurat online, cu participarea a 62 de specialisti, prof invatamant special profesori invatamant de masa, formatori educatia adultilor.

Seminarul a avut doua sectiuni:

Prezentarea de software care pot fi utilizate in educatia persoanelor mai putin familiarizate cu tehnica moderna, prezentare de bune practici in domeniul realizarii de materiale de invatare si formare de competente cu ajutorul software, prezentarea celor mai bune si actuale platforme si software utilizate in educatia persoanelor cu dizabilitati si nu numai.

On May 6, 2022, the Integrare Europeana Organization, together with the local partner CC DR, held the activity "Second training seminars organized for participants who do not have the basic notions in the field of technology and informatics".The seminar took place online, with the participation of 62 specialists, special education teachers, mass education teachers, adult education trainers.The seminar had two sections:Presentation of software that can be used in the education of people less familiar with modern technology, presentation of good practices in the field of making learning materials and skills training using software, presentation of the best and current platforms and software used in the education of people with disabilities and more.

Social Inclusion

In prima parte a simpozionului Gina Posirca a prezentat proiectul Erasmus+ “New horizons for the Blue word”- 2020-1-FR01-KA204-079996, obiectivele proiectului, partenerii implicati si produsele finale dar nu in ultimul rand grupul tinta al proiectului format din persoane adulte din spectrul autismului.

De asemeni s-a facut o descriere a produselor intelectuale ale proiectului, insistand asupra sprijinului acordat prin acest proiect persoanelor adulte cu autism, familiilor acestora si angajatorilor in vederea informarii acestora asupra avantajelor de a avea angajati persoane din spectrul autismului.

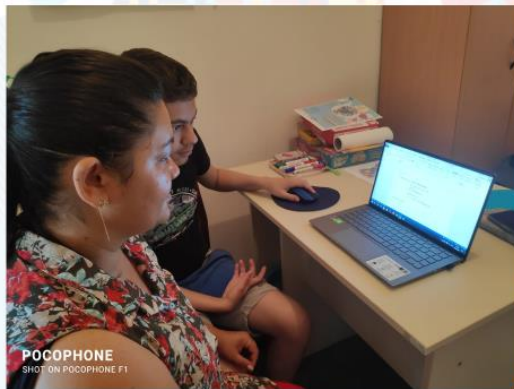

Lucrarile seminarului vor fi publicate in volumul cu ISBN, si va fi oferit gratuit altor organizatii care sprijina persoanele cu autism.

In the first part of the seminar Gina Posirca presented the Erasmus + project "New horizons for the Blue word" - 2020-1-FR01-KA204-079996, project objectives, partners involved and final products but last but not least the target group of the project consisting of people adults on the autism spectrum. A description of the intellectual products of the project was also made, insisting on the support provided by this project to adults with autism, their families and employers in order to inform them about the advantages of having people employed in the spectrum of autism. The seminar papers will be published in the ISBN volume, and will be offered free of charge to other organizations that support people with autism.

PRACTICAL ACTIVITY:

WORKSHOP with youth with autism and their parents.

The practical activity was attended by a number of 11 young people, 7 boys and 4 girls, diagnosed from an early age with autism or elements of the autism spectrum.

The young participants are between 16 and 24 years old. Their origin is different. Some come from legally constituted families, others from single-parent families, and still others from placement centers. 5 of them come from rural areas and 6 from urban areas.

8 parents accompanied the young people to activities.

The accompanying parents were the mothers, who were the most involved in the process of obtaining the personal autonomy of their children.

The activity aimed to develop those behaviors and skills that help the young people in question to be able to get employed.

So we suggested that at the end of this workshop, young people will know where to look for a job, how to create an e-mail address, how to write their own CV, how to write a letter of intent following the standard steps and expressions and how to present himself during an interview taking into account verbal and non-verbal language.

The methods used were description, exposition, exercise, dialogue and role play. Materials used were leaflets, worksheets, magnetic board, laptop with internet connection.

The young people responded positively to all moments of the activity. The parents present during this activity learned how to support them in this process of self development and understanding.

Strong points:

- Parents and young people's desire to be informed about the rights of people with disabilities related to having or getting a job
- They learned about the facilities offered by the state to employers in order to integrate people with autism into the labour market.

Innovative Technologies
E-learning

Online Counseling Service

Social Inclusion

Weaknesses

- involvement of a single parent in most cases;
- lack of knowledge and skills in the field of ICT for both parents and young people
- neither the young people nor their parents knew that there was a possibility to search for a job for people with disabilities
- they did not know the legislation that allows them to occupy a job and facilities provided by the state

**New horizons
